

Accreditations and affiliations

Our accreditations and affiliations are important to Stannah and we continually strive to make working with us as easy as possible. We are proud of our reputation for taking care of our customers, our staff and our products.

Leading the Lift Industry

Lift and Escalator Industry Association (LEIA)

We're active members of LEIA, the trade association and advisory body for the lift & escalator industry, who work with member companies to ensure competence, best practice and compliance across the industry. Many of our senior staff are active within LEIA helping to drive: technical & legal compliance, training & qualifications, quality, health & safety and lift standards.

Quality Assured ISO Certifications

Holding ISO certification gives you the reassurance that we do what we say we will. We know how to meet high standards, with the tools in place to ensure quality, consistency, environmental management, and most importantly exceed health and safety requirements.

ISO 9001 Certificate

The internationally recognised standard for the quality management of business.

ISO 14001 Certificate

The internationally recognised standard for an organisation's environmental management.

ISO 45001 Certificate

The internationally recognised standard is the benchmark for health and safety.
